

SPECIFICATION AMENDMENTS

Please amend the specification as follows:

Substitute the paragraph beginning on page 16, line 17 with the following:

The error & event processor provides an error object to store information about each occurrence of an error during processing of a command line. For additional information about one particular error and event processor which is particularly suited for the present administrative tool framework, refer to U.S. Patent No. 7,254,751, entitled "System and Method for Persisting Error Information in a Command Line Environment", which is owned by the same assignee as the present invention, and is incorporated here by reference.
